

### Sustainable Agricultural Livelihood Restoration, Rehabilitation and Resilience in Kenya

## Guidelines on Sustainable Ruminant Feeds and Nutrition Security for Kenya

# CHAPTER 4 STRATEGIC INTERVENTIONS TO ADDRESS RUMINANT FEED AND NUTRITION INSECURITY

### 4.4 Pillar 4. Feed stability

The interventions to improve the stability of the feed industry include:

#### 4.4.1 Intervention 1. Climate change mitigation and adaptation

- i. Use of climate information advisories for preparedness and disaster management
- ii. Adoption of climate smart agriculture technologies, innovations and management practices, participatory rangeland management for increased forage production and sustainable land management
- iii. Provision of water for livestock in strategic areas along migratory and livestock marketing routes
